Consultant

Up to 3 years of prior consulting experience. Acts as a team member who is assigned to a specific segment within a project under the guidance of a Senior or Managing Consultant. Assists in the creation of project deliverables and may have some exposure to client personnel.

Senior Consultant

Approximately 3-5 years of prior consulting experience. Participates well in a team setting and provides a project implementation life-cycle perspective. Work is typically supervised by a Managing or Principal Consultant. May be responsible for one or more deliverables and may hold the position of an Application or Module Lead. Moderate exposure to client personnel.

Managing Consultant

Approximately 5-7 years of prior consulting experience. Responsible for a software module or phase of an implementation and a team of Consultants and/or Senior Consultants. Operates with minimal supervision, but may report to a Principal Consultant or Elire Partner. Moderate to significant exposure to high-level client personnel. Holds a strong understanding of the project implementation life-cycle and has industry-specific knowledge in best practices. Able to apply complex ideas, issues, and observations into clear and understandable work products. Leads the gathering and submission of high quality deliverables to the client.

Principal Consultant

A minimum of 7 years prior consulting experience. Typically holds the project manager position or may be responsible for several modules/phases of a project with high complexity. Key interface with high-level client personnel. Holds expert knowledge specific to an industry, module, or project phase. Creates innovative solutions for complex business issues. Able to channel team efforts toward desired goals and applies processes which support effective teamwork. Committed to the development of others and is proactive in giving support and feedback. Typically holds significant financial management responsibilities for a project.
