

Within 5 years, 50% of ERP Market will be on a cloud solution

- Drive Cost Efficiencies
- Enable Mobile Workforce
- Improve Alignment with Customers/Partners
- Better Leverage Data to Provide Insight
- New Product Development or Innovation

The Cloud is more than just Applications

Oracle Cloud offers a leading infrastructure, technology, business applications, and information toolset to its customers

How will you be part of this move to the future?

HOW ELIRE CAN HELP

TRADITIONAL APPROACH

-  Requirements Driven
-  'Waterfall' Method
-  Customized
-  Big Bang

CLOUD APPROACH

-  Solution Driven
-  Templated
-  Adapt Processes
-  Incremental

Elire recommends an **update** to the traditional implementation approach, previously used for ERP, HCM, and large software system implementations

Elire's Success Delivered™ Cloud Methodology

-  **PLAN**
Establish project management structure, prepare work plan
-  **EVALUATE**
Assess current processes and systems, Conduct functionality workshops of future-state
-  **CONFIGURE/CONVERSION**
Define specifications to satisfy requirements not supported by delivered system
-  **EXECUTE**
Develop, Prepare and Execute test plan of future-state system
-  **IMPLEMENT**
Develop contingency plan and cut-over, support, and training strategies and documentation
