

# PEOPLESOFT 9.2 READINESS ASSESSMENTS

**ORACLE**<sup>®</sup>

**Gold  
Partner  
Cloud Standard**

## ARE YOU ABLE TO LEVERAGE CONTINUOUS DELIVERY?

Your PeopleSoft Upgrade is the perfect time to set the foundation for your organization's shift to Oracle's new Continuous Delivery Model (CDM). Elire, your Trusted PeopleSoft Advisor, has developed a suite of Readiness Assessment initiatives catered to optimizing your CDM efficiency and simplifying your 9.2 Upgrade process. Elire can help maximize your PeopleSoft investments by incorporating CDM standards throughout the upgrade lifecycle - as part of your 9.2 upgrade planning process, during the entirety of your 9.2 upgrade itself, and post 9.2 go-live - to ensure efficiency and maximum value under this new delivery model.

### FOLLOW OUR READINESS ASSESSMENT METHODOLOGY IN ORDER TO:

- Build enthusiasm for the future 9.2 PeopleSoft landscape
- Engage key project resources (both IT and business) early to thoughtfully set the course for a successful 9.2 upgrade project
- Solidify the 9.2 upgrade scope accompanied with go-forward upgrade project timelines and budgets
- Avoid jumping immediately to solutioning and project work without understanding true project impact, benefits, technology, etc.
- Move forward with your 9.2 upgrade project leveraging the results of the CDM Readiness and Fit Gap Analysis activities from the Readiness Assessment efforts

### SERVICE OFFERINGS

#### CDM Readiness Assessment (~2-4 Weeks)

- Evaluates Current State readiness using nine criteria to take on and succeed with Continuous Delivery Scorecard
- Assists in determining if your organization needs to build a Foundation or if your Organization is ready to take on Continuous Delivery

#### 9.2 Upgrade Readiness Assessment (~4-12 Weeks)

- Includes Fit-Gap Analysis, varying depending on existing customizations and new features being considered
- Allows clients to set the budget, timeline, and resource mix for their 9.2 upgrades with confidence
- Ensures that the 9.2 Upgrade will set up clients for success under Continuous Delivery
- Extensive analysis and effort performed allows a shorter and more efficient timeline since the upgrade scope is solidified
