

ERP TREASURY IMPLEMENTATION SERVICES

ORACLE®

**Gold
Partner**
Cloud Standard

Corporate Treasury departments must do more with less, especially in today's data-driven world. Not only is cash and liquidity management key, they are often responsible for more strategic and regulatory compliance functions.

Elire's **Treasury Implementation Services** focuses on maximizing your ERP software investments, and streamlining processes within the organization's Treasury Department.

Why Elire?

Elire is the **industry leader** in ERP Treasury Workstation installations

200+ Treasury workstation implementations since our founding in 2005

Elire consultants experience based on more than **20 years of finance and treasury** experience

Elire Partners maintain a **direct relationship** with Oracle Treasury Developers

Swift Ready Consulting Partner since 2007

Service Offerings

Implementation of Oracle PeopleSoft, E-Business Suite, or Cloud Treasury Applications

Enhanced Apps - to tailor non-delivered functionality to your organization

Enhanced Integrations - to setup your current connections with third party vendors

PeopleSoft in the Cloud - moving your catered PeopleSoft instance to Oracle Cloud to take advantage of the maintenance and cost saving benefits of a cloud solution, without losing your custom PeopleSoft Application
