Cloud Cash Management
Treasury in the Cloud

Elire is Oracle's premier go-to system integrator for Treasury Management implementations of on-premise and cloud based solutions. Oracle Cloud allows Elire to seamlessly integrate back office treasury function with HCM and FSCM on one platform, supporting enterprise wide information sharing and providing tools to push organizations forward strategically. As Oracle increases its Cloud investment, so does Elire, and we continue to be strategically positioned to provide customers industry leading adoption best practices through our Readiness Assessments. With Oracle Cloud, customers can tailor the platform to meet their needs and can integrate with legacy on-premise applications.

ORACLE | Partner
