Cloud EPM Services

Oracle Enterprise Performance Management (EPM) Solutions offer an effective and simple way to start your migration to Oracle Cloud. As a robust, stand-alone application, Oracle EPM offers a lower impact to your organization while also enhancing you analytics and reporting capabilities with essbase cubes. Harness the power of Oracle Cloud EPM Solutions to consolidate multiple applications easily, helping to streamline your processes for global or decentralized organizations into one robust financial reporting tool.

Streamline your Financial Reporting, Consolidation, and Close Processes with Oracle EPM Cloud Solutions.

ORACLE | Partner

Why Elire:

✓ **Oracle Expertise** - Elire consultants and partners average 15+ years of Oracle application assessment, upgrade, implementation, and optimization experience

✓ **Strategic Partnerships** - Elire maintains partnerships with the industry leaders in EPM Implementations, leveraging 20+ years of experience in the performance management space

✓ **Trusted Advisors** - Elire has the diverse oracle portfolio and project methodology tools to help your organization select the best solution long-term. We utilize your People, Processes, and Technologies to ensure you select the right solutions for your business, implement them effectively, and empower your staff through change management and training to use their new applications

✓ **Success Delivered** - Elire has successfully delivered 250+ ERP implementation and upgrade projects since our founding in 2005 for a diverse array of industry clients, including Financial Services, Healthcare, Utilities, Government Labs, and Education sectors

Service Offerings:

✓ **Optimization Assessment** - Evaluating your existing EPM platform including incomplete or failed functionality, assess process or product gaps, and re-implement to optimize your usage of your application

✓ **Implementation** - Implementing Oracle Cloud EPM Products including Planning and Budgeting Cloud Services (PBCS), Financial Consolidation Cloud Services (FCCS), and Account Reconciliation Cloud Services (ARCS) utilizing proven Success Delivered Implementation Methodologies and Accelerators

✓ **Managed Services** - Maintaining your EPM Footprint with production support, application enhancements, close processing assistance, and more based on level of services
