

Cloud Optimization Assessment

Are you live on Cloud but question if you're realizing the full potential?
Elire is here to help.

Elire's Cloud Optimization Assessment will provide a series of recommendations to help you maximize your investment in cloud, ranging from:

- ✓ Expanded Functionality
- ✓ Improved Processes
- ✓ Custom Development
- ✓ Quick Wins
- ✓ Enhanced Reporting

ORACLE | Partner

Elire Cloud Optimization Assessment

Mobilization

Kicks off the project by reviewing your pain points, incorporating any existing applicable analysis, and identifying the business processes in scope

Disconnect Assessment

Allows the organization to efficiently document current state disconnects for the in-scope processes

Process Maturity Assessment

Helps the organization understand their process efficiency across five critical enablers (Design, Metrics, Owner, Performers, and Infrastructure)

Review & Validation

Removes barriers by ensuring the information collected is complete and accurate, while strengthening support within the team(s)

Recommendations

Presents recommendations divided into Shortterm, Medium-term, and Long-term Groupings and the associated high level business case
