PeopleSoft 9.2 Upgrades

How Elire Can Help

PeopleSoft 9.2 is a game-changing release providing continuous innovative features across the entire PeopleSoft product suites, including offering a modern, flexible user experience and new tools to extend user capabilities. Preparing for this “final” upgrade requires a proven approach to unlock the power of PeopleSoft 9.2 and prepare your users to take advantage of these new tools.

ORACLE

Partner

Do you have the right partner?

Elire Success Delivered™ Upgrade Methodology:

Plan

Elire lays a strong foundation to ensure all resources understand their roles and responsibilities through every step of the project

Install

Elire helps our client understand current and future state software requirements, develop environment strategies, and complete the initial upgrade

Design

Elire assists in thoughtfully setting scope with confidence and preparing for long term success under Continuous Delivery

Reapp

Elire will help you take advantage of the latest technologies and help re-engineer your customizations as bolt-ons to reduce maintenance under Continuous Delivery

Test

Elire perfects the Test Moves process via multiple test cycles and prove the organization is ready to go live with confidence

Upgrade

Elire's solid track record and experience helps to minimize business disruption at go-live
